There has been, during the past boats, &c., belonging to the Federals. Some month, a marked decline in the prices of dry goods, and we can see no reason why the prices of greceries and provisions should reters in the military prison until a shipment of nain statu quo. It is a matter of very great mportance to a large portion of our clt'zens, and we allude to it with the hope that our retail grocers and provision merchants may take

Commercial of yesterday:

The weather was changeable yest rday. During the morning it was cloudy and mild with coplous showers. A furious gale prevailed during the afternoon, blowing the boats at the levee stern up stream, and breaking up their gangways. It also rained hard, interspersed with a lively sprinkle of hall. Last night it was cold, with a high wind and more rain, being too rough for safe navigation on the river. It was also raining at Pittsburg yesterday, with 14 feet water in the channel and falling. The last arrivals report the Ohio and all its tributaries failing from Pittsburg to Portsmouth. Here the river has risen three feet during the twenty-four hours ending last night, when it was still swelling at the rate of half an inch per hour, with forty-three feet in the channel. We incline to the opinion that the river will come to a stand to-day, and be found receding to-morrow.
